Great Oaks students are distinct from all other students in Delaware because GOWIL ties student promotion not only to high academic standards, but also high behavioral standards. Our team believes that it is equally as important for kids to learn professional and appropriate behavior as it is to master academic skills. In order for students to meet these high expectations, families must agree unequivocally to support Great Oak's Standards of Student Conduct. Through this partnership between family and school, students will reach their ultimate potential.

I pledge to support GOWIL staff in upholding the expectations in the Standards of Student Conduct found on our GOWIL website so that my student can reach his or her full academic and personal potential:
